ABOUT US

Rubberplastech is the first manufacturing unit in the UAE for polypropylene and polycarbonate food and beverage service products which specializes in bringing up to date solutions for the HORECA industry globally.

Headquartered in Dubai, Rubberplastech operates within a strong framework of values with global standard of certifications, ensuring green technology use, producing safe and high quality products with state of the art robotic machinery and superior grade raw materials sourced from some of the world's best producers including LG, Mitsubishi and Borouge to name a few.

The company proudly manufactures its molds in-house using high grade steel from Germany. The design and creation of products is done with the end user in mind. The R&D team continually strive to develop new ideas for specific industry segments and invest in new tooling and leading-edge machinery to bring these products to market.

erPlasTech

the choice

Rubberplastech strives for excellence in service, competitive pricing, stock availability and on time delivery. The factory spans 84,000 sqf and is located in Jebel Ali, 20 minutes from the Jebel Ali Seaport and 10 minutes from Maktoum International Airport. To better serve our clients this close proximity to the ports will ensure reduced local mobilization costs and faster delivery of products.

Imbedded at the core of Rubberplastech is the desire to have a positive social impact for communities in the developing world who can benefit from our products. We hope to continue building long-term collaborations to achieve impact.

Rubberplastech aims to place itself among the top 3 global market companies.

We look forward to serving you!

Rubberplastech Polycarbonate: Food and Beverage storage and service Products

Rubberplastech proudly manufactures a wide range of high-quality unbreakable polycarbonate products for efficient food and beverage storage, transport and service. The product ranges include Gastronom Containers (GN), Round and Square storage containers with sealing lid, Trays, Glasses, Plates and Bowls with lids. Products comes in multiple sizes, color options and are lightweight, dishwasher safe, suitable for microwave and are stackable enabling efficient storage.

The Gastronom (GN) polycarbonate containers are a must have in every kitchen. The containers are practical and precisely designed to global Gastronom container specifications. The GN containers are available in clear color making it easy to check contents quickly and easily during a busy service and in black color for elegant display. Clear lids are available for GN Containers and multiple color lids for square and round storage containers.

The Rubberplastech polycarbonate containers can be used in a hot cabinet and bain-maries that heat up to 99°C and to store frozen goods up to -40°C.

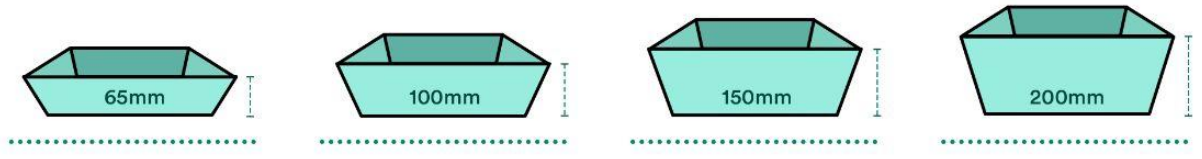

Designed to resist stains and odor, containers can be reused without cross-contamination.

Measurement marking provide quick reference of content levels for simplified portion control.

All Rubberplastech products made from Polycarbonate are 100% recyclable.

Rubberplastech Polypropylene Food and Beverage Storage and Service Products

Rubberplastech proudly manufactures a wide range of high-quality polypropylene products for efficient food and beverage storage, transport and service. The product ranges include Gastronom ((GN) Containers with sealing lid, round and square storage containers with multiple color sealing lids, Trays, Glasses and Table legs. Products comes in multiple sizes, color options and are lightweight, dishwasher safe, suitable for microwave and are stackable enabling efficient storage.

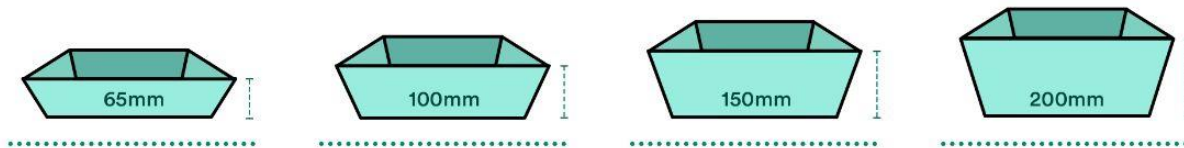

The Gastronom (GN) polypropylene containers are a must have in every kitchen. The containers are practical and precisely designed to global Gastronom container specifications. The GN containers with sealing lids are available in translucent color making it easy to check contents quickly and easily during a busy service. The sealing lids enable food to stay fresh and enhance the shelf life.

The Rubberplastech polypropylene containers can be used for dry storage up to 80°C and for frozen goods up to -40°C.

Measurement marking provide quick reference of content levels for simplified portion control.

All Rubberplastech products made from Polypropylene are 100% recyclable.
